Please join our Sponsors, The Arc of Colorado, and the Colorado Center on Aging for discussions about community living, accessibility, transportation, and the state budget.

Many of our aging Coloradans and individuals with intellectual and/or developmental disabilities require additional services and support to live full, active, and healthy lives in their communities, maintaining independence as long as possible. The **2025 Legislative Caucus on Aging** is dedicated to protecting the civil rights of Colorado's most vulnerable residents and advocates for access to essential housing supports and specialized services to help all Coloradans live more independently.
